Technical Information

- Eligibility for Events is the same as for the CanSkate Element Event.
- Teams will be comprised of 2 skaters.
- Team elements will be skated in the ORDER LISTED.
- The entire flight goes out for a four minute warm-up. Once at the boards, the first skater from each team will skate all of their elements before returning to the boards. For example, first skater will skate a forward 2 foot turn-twice, forward 2 foot sit glide-twice.
- Once all of the first skaters from each team have skated, then the second skaters from each team will go out and skate all of their elements twice before returning to the boards.

Event Assessment: The event is assessed using a collaborative assessment panel (similar to the technical panel where decisions are made based on discussion by and consensus of the group). The determination of an award level for each element is determined by consensus of the assessors and based on each element's three performance features. Each assessment panel includes three "assessors" (Coaches and PAs may take on the role of "assessor" for the purposes of this event). The panel must include at least one Skate Canada coach (CANSKATE trained or higher) who acts as the referee. In addition to assessing the skills to standards, each member of the panel (referee, scribe and timer) is assigned a specific duty. After each skater performs the element, the Referee will call an assessment of Gold, Silver, Bronze or Merit according to the criteria for CANSKATE Standards. Skaters will receive a report card and a ribbon.
