RETURN TO PLAY PROTOCOL FOR CLUB ADMINISTRATORS, COACHES AND ANYONE ORGANIZING OR PARTICIPATING IN SKATE CANADA PROGRAMS/FIGURE SKATING RELATED ACTIVITIES

In light of a gradual return to skating across the Province, Skate Canada Manitoba is issuing its recommendations for club administrators, coaches and anyone organizing/participating in Skate Canada Programs and figure skating related activities.

With a situation that evolves each day and differs in various cities, regions and municipalities, Skate Canada Manitoba believes that it is the responsibility of the people organizing Skate Canada Programs and figure skating related activities to ensure a safe environment for skaters.

Thank you for taking the necessary precautions and doing your part to limit the spread of COVID-19. Please stay up to date on the ever-changing situation by checking/referring often to the following sources of information:

[Skate Canada COVID-19 Response Page](https://skatecanada.ca/covid-19-response/) - <https://skatecanada.ca/covid-19-response/>
[Government of Manitoba COVID-19](https://www.gov.mb.ca/covid19/index.html) - <https://www.gov.mb.ca/covid19/index.html>
[Government of Manitoba COVID-19 Updates](https://www.gov.mb.ca/covid19/updates/index.html) - <https://www.gov.mb.ca/covid19/updates/index.html>
[COVID-19 Screen Tool for Self Assessment](https://sharedhealthmb.ca/covid19/screening-tool/) - <https://sharedhealthmb.ca/covid19/screening-tool/>

These are necessary protocols that **MUST** be followed before organizing a Skate Canada programming/figure skating activity. Please note that your municipality and/or arena/facility may have protocols that exceed or are looser than those set out below. All clubs **MUST** follow the highest standard that has been set.

Effective August 4, 2020 any person entering a facility for Skate Canada programming or figure skating related activity must wear a mask for the duration of their stay. This includes athletes*, volunteers, coaches, and spectators.

**Athletes may remove their mask once they have entered the ice surface, and remain mask free until they exit the ice surface.*

ORGANIZING SKATE CANADA PROGRAMS/FIGURE SKATING IN YOUR FACILITY

- The activity must always comply with the physical distancing, cleaning, sanitizing measures and recommendations issued by federal, provincial and municipal government authorities, including the arrival, time spent on site and departure of skaters.
- For provincial and interprovincial travel:
 - Please check with your destination for any/all restrictions such as self isolation or quarantine required upon arrival

- Please check with your home jurisdiction for any/all restrictions such as self isolation or quarantine upon returning
- Each province, municipality, city/town, facility, and/or Skate Canada Member Club may have different requirements that you will need to abide by
- See **Appendix A** for each Skate Canada program, competitive level and other skating related activities for specific return to play timelines, stages and limitations.
- Limit your activities to practice and private lessons or lessons with small groups. If lesson with small groups occur, physical distancing measures must be followed.
- Session numbers will be limited according to the Skate Canada Manitoba Return to Play stages as indicated in **Appendix A** and in accordance with the current guidelines set out by the Chief Public Health Officer for gathering sizes. Please refer to the [Government of Manitoba's COVID-19 website](#) for the most up to date restrictions.
- All individuals (coaches, skaters, volunteers, participants, officials, spectators, etc...) wishing to be involved in Skate Canada programming or other figure skating related activity must sign the Skate Canada waiver **prior to** participating.
 - Signed waivers must be kept on file and copies submitted to Skate Canada Manitoba
- Skaters, coaches, volunteers and program staff may not participate if they:
 - Exhibit any COVID-19 symptoms, such as a fever, cough, difficulty breathing, or other symptoms identified by health experts. Please see the [Government of Manitoba's About COVID-19 page](#), The Symptoms of COVID-19 tab for the full list of symptoms
 - Have been in contact with someone with COVID-19 in the last 14 days
 - Travelled outside of the province in the last 14 days – Please see the current **Government of Manitoba Phase for regulations pertaining to travel within Canada**
 - Travelled **outside** of Canada within the last 14 days
- It is highly recommended that if you are a person who has been identified as vulnerable or at risk that you do not participate in Skate Canada Programs or figure skating related activities. Vulnerable or at-risk persons include:
 - Elderly individuals (as defined by Manitoba Chief Public Health Officer)
 - Immunosuppressed persons
 - Individuals living with chronic health conditions (e.g. diabetes, heart, renal or chronic lung conditions, high blood pressure, pulmonary diseases, diabetes, obesity and asthma)
- Skaters, coaches, parents, volunteers and program staff must have a daily verbal screening for symptoms upon arrival at the building before participation. See Participation Screening Template.
- Must have adult supervisor off the ice making sure that physical distancing guidelines and traffic flow are being followed.

- It is recommended that skaters put their skates on by the rink on benches or chairs with proper social distancing spacing marked on the floor.
- Limit yourself to the minimum number of employees/coaches/adult supervisor required to ensure programming minimum standards and recommendations by the Provincial Government are followed to operate in the facility in conjunction with Appendix A.
- Communicate all hygiene measures in advance to all your members and skaters.
- Keep a record of all skaters on each session, so that you can contact them if needed, for example, if an infected person should use your facility. Please see **Appendix B** for the record sheet to complete every day for each session.
 - Records must be kept for 30 days and be accessible in case of an emergency such as an outbreak at the facility.
- Clear markings on the ground of where skaters and coaches should stand while waiting to go on the ice and where they sit while putting skates on to make sure they remain 2 metres apart.
- Signage must be posted throughout the facility – All posters found on our [website](#)
 - Examples:
 - Physical distancing policy
 - How to protect yourself and others
 - What to do if you are sick
 - Cover coughs and sneezes
 - Handwashing
 - Don't touch your face – eyes, nose, mouth
 - COVID-19 Government of Manitoba Poster 1
 - Government of Manitoba Social Distancing Poster
 - Water fountains closed
 - Entry and exit signs for traffic flow

PROVIDE A CLEAN AND SAFE ENVIRONMENT

Clubs and sporting facilities must have operational security procedures in place during the crisis related to COVID-19. These procedures must also be well displayed and communicated to all users.

- Use markings on the ground to indicate proper distancing between skaters and/or coaches, for example where skaters wait to enter the ice.
- Separate entrance and exit into/out of building.
- Separate entrance and exit onto/out of ice surface.
- Cleaning supplies must be provided by club.
- Any off ice club volunteer must be supplied with a mask and gloves to perform cleaning duties, music playing, or screening duties.

- Personal protective equipment for on ice volunteers (such as masks) is optional as long as it does not obstruct or inhibit skating ability. Masks are mandatory for all volunteers (including PA's) and coaches on the ice. Additional personal protective equipment is optional.
- Coordinate with your facility who is responsible for cleaning specific areas.
- All high contact surfaces should be frequently cleaned, such as door handles, benches, counters, etc...
- Review club props, teaching aids, etc... and designate one person to handle them. For information regarding Harnesses, please see Coaching.
- All chairs and tables in communal areas must be physically distanced or made inaccessible if distancing is not possible.
- All doors accessible to the public must remain open to avoid contact with door handles (with the exception of ice surface doors).
- Have only 1 person operating the music system, this cannot be skaters. Keep sanitizing wipes next to the music player and affiliated equipment.
- Soap or hand sanitizer must be made available to all members in various locations throughout the facility including upon entry to the building, upon entry to the ice surface, and upon exiting of the ice surface.
- Regularly remind and encourage skaters to wash their hands and adopt proper hygiene practices.
- Skaters, coaches, parents, volunteers, etc... must wash their hands upon arriving at the facility and sanitize often.
- Close all water fountains and ask that everyone brings their own refreshments.
- Used facial tissue and/or kleenex must go directly into the garbage can after use. No used tissues allowed on the rink boards. Wash or sanitize hands after disposal.
- Any area exposed to personal items must be disinfected. Encourage skaters, coaches and volunteers to leave unnecessary personal items at home.

ENCOURAGE PHYSICAL DISTANCING

- Encourage skaters to respect physical distancing of 2 metres, recommended by government authorities.
- Ask skaters to try to remain 2 metres from all other skaters and coaches on the ice.
- Put in place measures to limit physical contact between all on ice participants.
 - o We have received clarification that where sport specific training cannot maintain the physical distancing requirement of 2 meters that contact must be kept between participants (including skater to skater, coach to skater, etc...) to a maximum of 10 cumulative minutes per session.
 - Please note that at this time Synchronized Skating remains no contact. We are currently reviewing and researching how best to adapt

this information for the Synchro discipline. Thank you for your patience and understanding.

- Clubs, in consultation with each facility, will determine drop off/pick up times and protocols around parent/guardian remaining in facility. Encourage physical distancing at all times.

COACHING

- Coaches to practice physical distancing from skaters, volunteers, parents and other coaches on and off the ice.
- Additional personal protective equipment is optional as long as it does not obstruct or inhibit skating ability.
- Any equipment used on the ice must be disinfected before and immediately after each session.
- Only designated persons may set up equipment. Only 1 person should be operating equipment.
 - Harnesses (Stage 2) - As of July 30th harness lessons can resume with below considerations:
 - In order to use the harness skater must be able to, without help, get in, tighten, and get out
 - Harness operator must wear a mask and gloves
 - Skater must disinfect equipment they have touched
 - Keep harness portion of lesson under 10 minutes
- Divide coaches and skaters into “training groups,” if ice time can accommodate.
 - Number and assign each coach a designated area along the boards where they must remain to teach lessons
 - Consider putting numbers on the boards themselves to indicate each coaches area
 - Coaches must remain in their designated area and may not skate alongside any student
 - Effective July 20th, 2020 Coaches, Choreographers will now be allowed to skate alongside/behind their student but MUST always maintain physical distancing. Coaches should still be assigned a designated area along the boards. We strongly encourage Coaches, Choreographers must wear masks while out on the ice (ie away from their designated board position). All other Return to Play guidelines are still in effect and must be followed.
 - Limit coach/skater contact; coaches should not physically help students up unless the student is unable to get up
 - Coaches should use verbal cues or non-contact demonstrations when instructing students rather than physical contact

PLAN AHEAD/ THINGS TO CONSIDER

- Develop flexible refund policies should stay-at-home orders be restored or if rink is forced to close.
- Have well defined session protocol, including accepting drop ins or skaters from other clubs, etc...
- Designate an on-site emergency person who will be at the rink during the session(s) and has access the skater emergency contact information, and Emergency Action Plan (EAP). This person must be a current Skate Canada member and should be a member of your board if possible.
- Update your club's Emergency Action Plan (EAP) and have available board/rink side or with your designated onsite emergency person. (EAP templates and eLearning module are available on [The Locker](#))
- Create an emergency plan with rink management for a possible outbreak. For an example see **COVID Emergency Response Plan template**.
 - Have a communication strategy to alert all who may have been exposed
 - Consult local health authorities should an outbreak happen in your facility
 - Identify a contact person to receive reports from skaters/families/staff of new illness
 - Designate one person to speak publicly for the club/programs to members, media, health officials, etc...
- Skaters should take temperature several hours before skating session and email the temperature reading to their coach.
- Create designated pick up and drop off times to avoid any congestion in consultation with your facility.

COMMUNICATE EARLY & OFTEN

- **Club executives and coaches have the authority to ask skaters, members, volunteers, coaches, etc... to leave if they are not following the above outlined protocols, and those of your local facilities.**
- Appoint a COVID-19 point person to communicate with rink management and monitor local, provincial and national developments.
- Email skaters and their families with your facility/club's new policies and procedures, making clear your policies & expectations.
- Coaches should provide preferred method of communicating with parents (email, text, lesson plan notes, etc.).

CONTACT INFORMATION

We would like to thank all of you for your dedication, patience and understanding as we work collectively through this unprecedented time.

We encourage you to reach out to one another for support, to collaborate and discuss challenges.

The Section office staff are also available should you have questions or require clarification. Please check out our [website](#) for contact information.

APPENDIX A: SKATE CANADA PROGRAMMING RETURN TO PLAY STAGES

Movement between stages will be determined by Skate Canada Manitoba based on the current Government of Manitoba guidelines found in the Restoring Safe Service documents. Please note that while we hope to move through the stages sequentially, due to unforeseen changes in public health requirements, we may have to move back to previous stages.

STAGE 1 June 19, 2020 (all changes will be highlighted in yellow)

STAGE 2 September 1, 2020

STAGE 3- 5 future timing to be determined
